

Public opinion survey to assess the changes in citizen's awareness of civil society and their activities

# Methodology: quantitative survey of Ukrainian population

**Sample size** 2,011 residents of Ukraine.

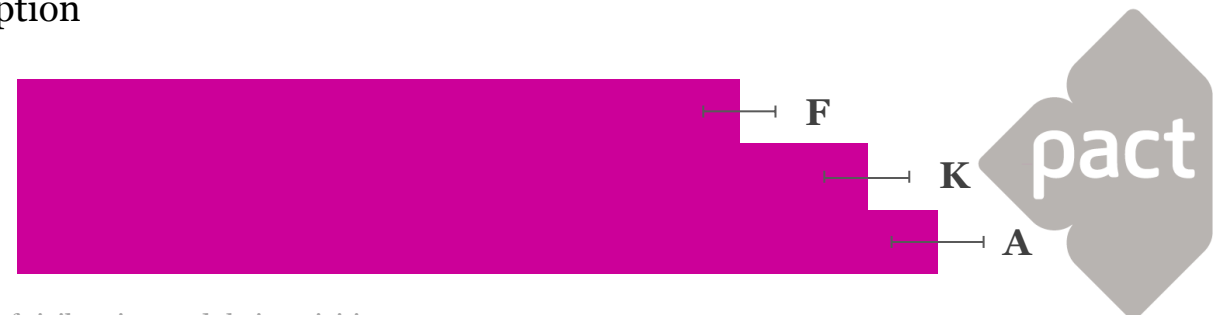

**Sample design** The interviews were conducted with the residents of Ukraine aged 18 years old and older. Sample design corresponds to the distribution of adult population of Ukraine by age, sex, oblast and settlement type according to the data of the State Statistics Service of Ukraine as of January 1, 2018 (excluding AR Crimea and NGCA of Donetsk and Luhansk oblasts).

**Method** CAPI: face-to-face interviews on tablets at respondent's home

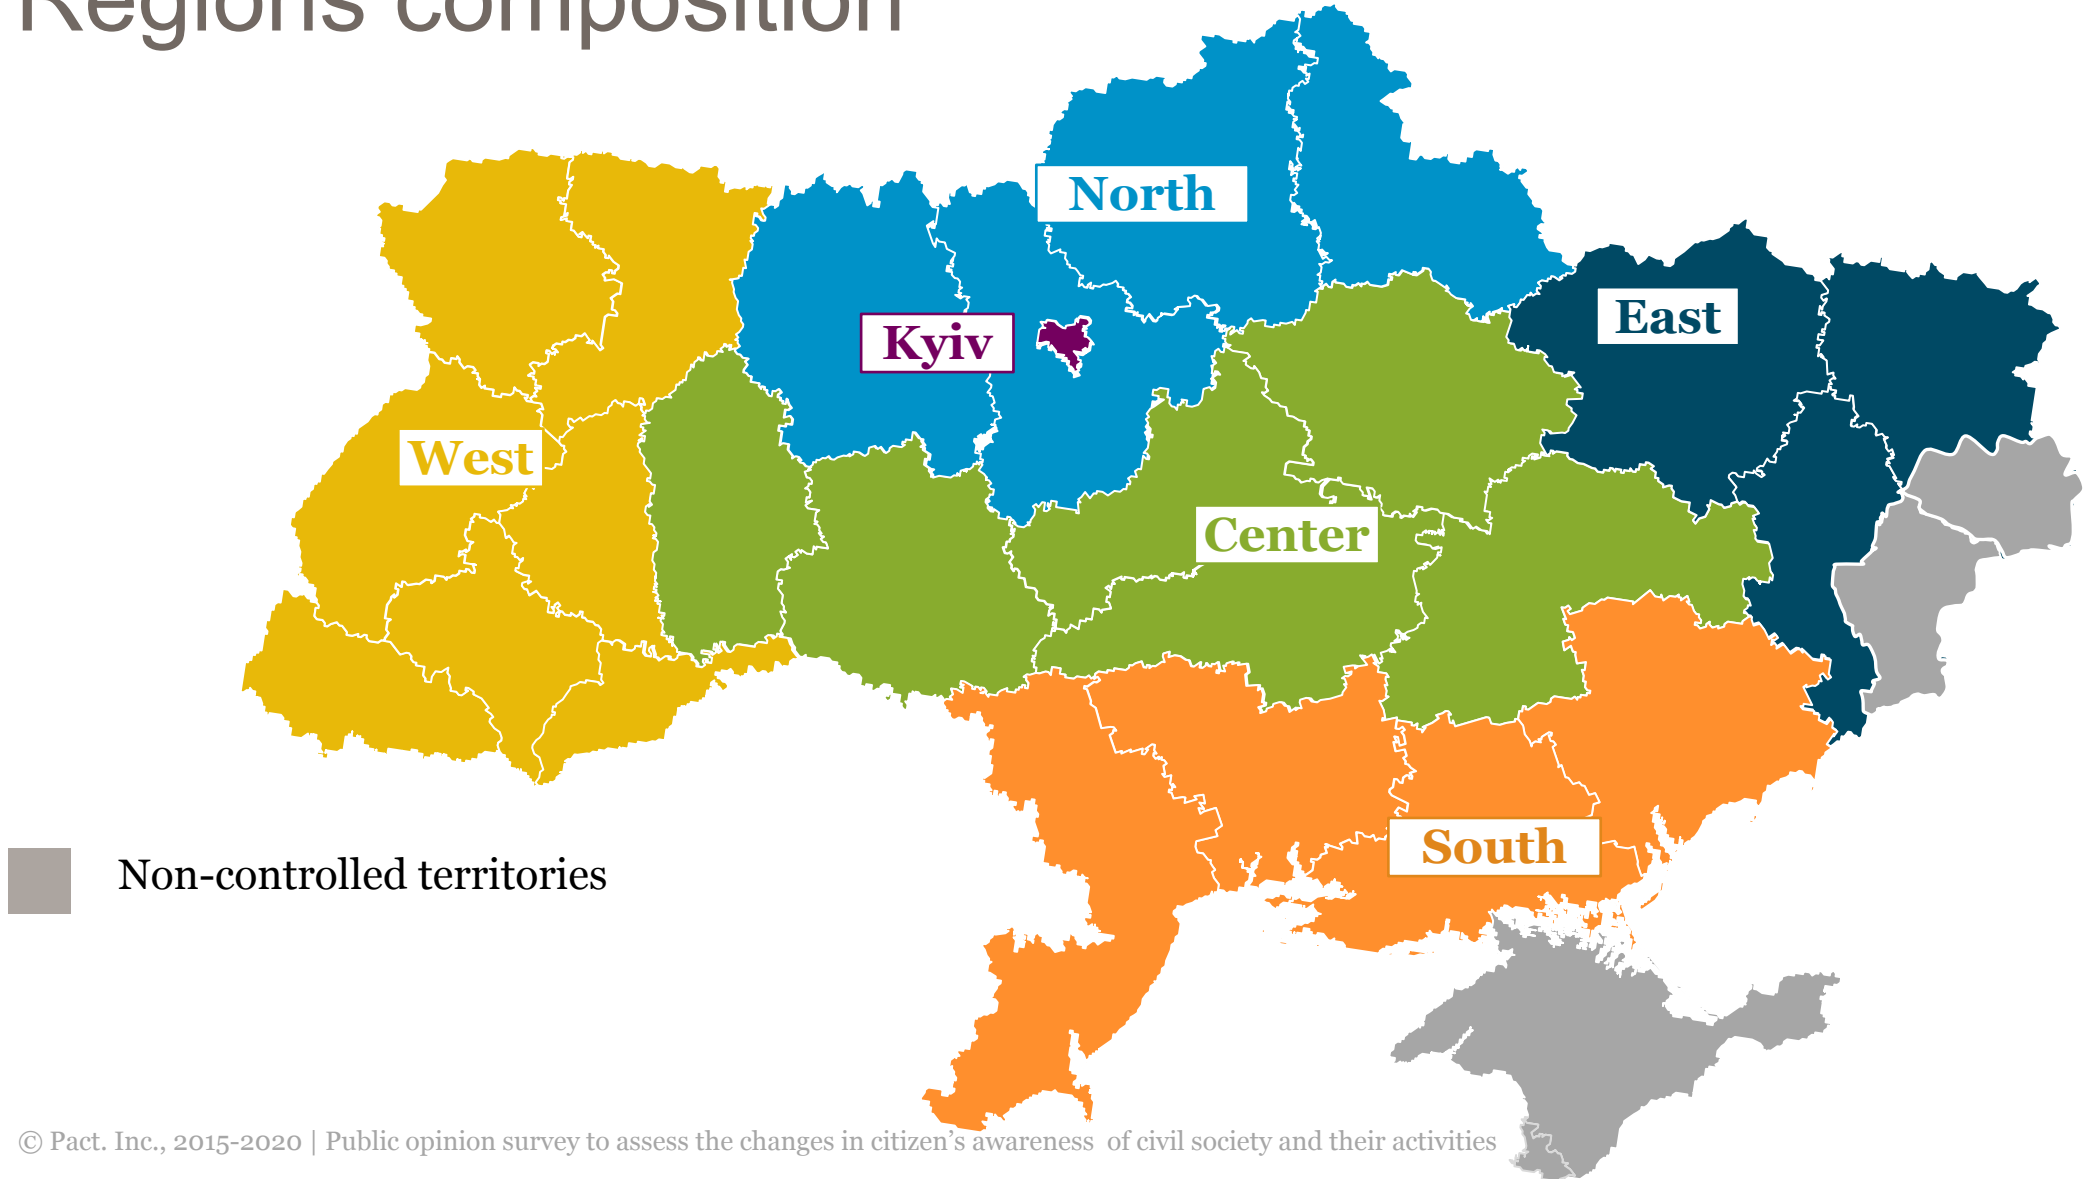

**Fieldwork dates** January 8-30, 2020

**Margin of error** Margin of sample error (not including design effect) does not exceed 2.2% for national sample. It can be different for every response to every question in all surveys. On these slides, the margin of error is shown for each question/option

This is shown on example here.  
A is statistically greater than F  
K is statistically greater than F  
There is no statistical difference between K and A
